

HiCap Identification Community Group

In partnership with Riverside (formerly Houghton Mifflin Harcourt – Authors of the CogAT test), WAETAG is excited to welcome you to our first webinar for users of the CogAT (Cognitive Abilities Test), or those who would like to learn more about it.

Overview

For leaders and administrators of Hi-Cap, are you looking for a group to share and learn ideas for leading a gifted program? This group will be the first of future sessions to discuss how to pull the community together to share expertise and learn from one another about gifted testing and supporting each of your programs.

This first session will be themed to explore what resources and reports are available within the CogAT platform and within Riverside Assessments to support your testing. We will be soliciting questions and items for future agendas from the community. Be a part of planning your own learning! WAETAG and Riverside Assessments are working to help empower our community of Highly Capable Administrators.

Agenda

- I. Introductions
- II. Purpose of the Group
- III. CogAT Resources – Things you may have missed
- IV. CogAT Reporting – Where to find what you need
- V. Q&A
- VI. Looking Ahead – Identify future presenters and topics
